THE CROPS.

Reports from all over this district show that the crops of all kinds of grain have suffered to some extent owing to the want of rain. Potatoes and garden stuff have also suffered. But while the crops will not be as good as all would wish to see them, there will still be a very fair yield. The little rain that has fallen this week will do a great amount of good, and with a little more the crops would be up to the average. Notwithstanding this partial failure, we notice a cheerful tone among our farmers; and, after all, there is no reason why they should be disheartened. Manitoba has suffered greatly from the same cause, and if reports be true, the crops in some portions of the Territories are a total failure. The damage will not be confined, either, to Manitoba and the Territories, but will extend to the States and Territories to the south of us. While complaints come from the southern districts that the hay crop is also a failure, it is not so in this district. Ridge hay will be scarce, but on low ground the crop is a 1. Many of our best farmers are preparing to put in an increased acreage next spring, which shows that this year's shortage in their crops does not diminish their faith in the country.

ODD-NUMBERED SECTIONS

The question of throwing open the odd-numbered sections to homestead and pre-emption entry has been a burning one in the North West for a long time. Persistent efforts have been made to have them opened up for settlement, but without success. The Government, while admitting the force of the arguments advanced in favor of such a change, hold that these lands are required for the public service. They say, we must reserve these sections in order that we may be able to bonus colonization roads. The settler says it would be greatly to our advantage and that of the country if they were open to settlement, because settlements would be more compact, which would be a great convenience for schools and churches, and would lighten the cost to the settler of improving the roads. There are many other arguments in

favor of making a change, but they have been so often gone over in the past that we will not now recapitulate them. As to the objection raised by the Government, we think that they could make the change asked for and still have land for railway purposes. Let every alternate township be reserved, instead of alternate sections, or reserve still larger tracts. We notice that quite recently a Crofter settlement has been formed and allowed the privilege of settling odd as well as even sections. Why should the Crofters be allowed privileges that are denied Canadians? We fail to see any reason, and we claim that every class of immigrants should be treated alike. The Crofters are doubtless a very desirable class of settlers, but they are not any more desirable than good Canadian farmers. We are pleased to see the Crofters allowed to homestead odd sections, and trust that the Government will very shortly accord the same privilege to all.

In a recent issue of this paper we took occasion to find fault with officials of the Indian Department for allowing and even encouraging Indians to violate the Game Laws. We published the article in question, believing our information to be reliable. Mr. R. S. McKenzie, Indian Agent at Duck Lake, wishes us to give the charge referred a flat denial as far as he is concerned. We will state for his satisfaction that his name was not mentioned to us as one of those officials who had transgressed in the direction intimated. The charge was general, and we are perfectly willing to accept Mr. McKenzie's statement, and very much regret that any wrong should be done him through the medium of this paper.

ENCOURAGING SCIENCE.

The Vermont Microscopical Association has just announced that a prize of \$250, given by the Wells & Richardson Co., the well-known chemists, will be paid to the first discoverer of a new disease germ. The wonderful discovery of Prof. Koch of the cholera germ, as the cause of cholera, stimulated great research throughout the world and it is believed this liberal prize, offered by a house of such standing, will greatly assist in the detection of micro-organisms that are the direct cause of disease and death. All who are interested in the subject and the conditions of the prize, should write to C. Smith Boynton, M.D., Sec'y of the Association, Burlington, Vt.

RED DEER HILL.

The most of grain is out in head and promises a fair return.

Two Indian hammers have been picked up on R. English's farm. They do not show good workmanship.

Hay will be scarcer this season than for some years past.

Of all the butternuts, walnuts, etc., received from the Experimental farm, in this district, only one black walnut is growing. It is four inches high.

Ladoga wheat is doing well, also a new variety called Redfern looks very thrifty. Racehorse oats look splendidly and promise to take the lead of other varieties. Some Saxtonka and Kubanka wheat looks fair.

The installation of officers of St. Andrew's Council No. 5 took place on Friday evening last. Bros. McLelland and Adams, of Rupert Council, were present and conducted the installation. Bro. McLelland will give a splendid badge to the member of St. Andrew's Council securing the greatest number of candidates. Bro. Adams will present a badge to the officer who most efficiently performs his duties. Short speeches were delivered by the visiting brethren, complimentary to the officers and members, for the efficient manner in which this council was conducted. The following officers were installed:—Bro. And. Spence, S.C.; Sister Annie Adams, V.C.; Bros. Jos. Omand, P.C.; Chas. Adams, Chap.; W. Boylan, R. Sec.; Thos. Adams, F. Sec.; J. Beddome, Treas.; Jas. One day last week Wm. Turner set a hot branding iron down by his stable door and went away. It unfortunately happened that it was hot enough to set fire to some straw that was lying around, and the consequence was that the stable was burned down, together with its contents, the principal articles which were a set of double harness and a quantity of oats.

DUCK LAKE.

Our esteemed postmaster, Mr. Fisher, paid your town a visit this week, and reports some substantial progress since his last visit.

We had a heavy rain on Tuesday last, soaking the ground for over a foot deep. Some damage is reported through hail near Fish Creek.

No passengers are on the in-coming stage this week.

The trotting match between Around and Fiddler resulted in a tie, but it is not known whether it is to be run over again or not.

Indian Agent McKenzie left on Wednesday for Fort a la Corne. The crops on the different reserves will be light. Indian Commissioner Reed will arrive in a few days from Battleford. He is on a tour of inspection.

Warren Finlayson, now at Batoche, has been permanently employed in the Government Telegraph Service.

P. Fleury, of this place, has completed his contract of supplying tamarac poles for the Clark's Crossing and Saskatoon telephone line. He has also been awarded the contract for building the new line.

H. Kelly, of Erinscourt farm, shows here samples of wheat which measure four feet three inches long and well headed. He will have a crop far above the average. Several others in this district will have a 1 crop.

Several more Indians have returned from Montana and purpose remaining here.

James Scott, mail contractor, passed through here this week.

On Tuesday evening last lightning struck the house of Louis Marion, Indian Instructor on One Arrow's reserve, near Batoche, doing considerable damage. The current entered the building immediately over a window, breaking a number of lights. Mr. Marion and family were all in the room and all were knocked insensible. The lightning blackened a watch chain which was worn by Mr. Marion, soldering the key to the chain. The family are all recovering.

The following registered at Duck Lake House this week:—Miss McLean, Sherill Hughes, C. Loscombe, S. McLeod, all of Prince Albert; Jas. Scott, Troy; A. N. Peterson, Wingard; Hy. Kelly, Erinscourt; Rev. Jno. McKay, Snake Plain; A. J. McNeil, I.D. clerk, Okamasia. The hotel is being re-fitted.

Great preparations are being made by the Metis for their national celebration on July 24th, St. Joseph's Day. The sports will consist of horse and foot racing, jumping, etc.

Mr. McDougall is on his way in to Prince Albert with a band of horses.

Reports are just in that hail destroyed everything at Snake Plain on Tuesday, even cutting down the willows.

Plenty of raspberries are coming into market here now, at \$2 per bushel.

F. C. Baker is offering Linen Coats and Vests, Norfolk Jackets, Cashmere and Balbriggan Underclothing, white and colored Shirts, summer Ties, etc., etc., at very low prices.

On Friday afternoon last a game of baseball was played at Colleton between the Prince Albert and Colleton Clubs, and resulted in favor of the town boys by six runs, the scores being 11 and 5. It was a pitchers game throughout as both Kerr and Moffat struck out about half of those put out on each side. The ground was very dry and the dust something terrible. The Colleton boys have improved greatly since they played in the town last.

THE USUAL RESULT.

It is not to be denied that a good sewing machine is one of the most important appurtenances of the modern household.

We thought we had a good machine until one day the agent of the New Home presented himself at our door and proceeded to deliver an oration upon its characteristic merits. "But," we answered, "our machine suits us well and we do not care for another." The agent however begged the privilege of leaving one of his machines with us, "for the ladies to try." The request was not unreasonable, so we granted it—but more to oblige the agent than anything else; for we really did not want the machine, and had not the remotest idea of buying it.

The machine once in the house, it was natural that the ladies should look it over; they did so, and as a consequence fell in love with it. They say that without the slightest wish to decry or disparage any other machine, this, all things considered, is, in their opinion, the most desirable one to be had.

This unrivalled machine is manufactured by the New Home Sewing Machine Co., Orange, Mass., and 28 Union Square, New York.

T. E. Baker purchased that old relic of antiquity, the old Presbyterian Mission church, on King street, and pulled it down, which is a great improvement to King street. Mr. Baker intends putting up a carpenter shop on Second street and in doing so will use the logs and lumber of the oldest building in Prince Albert.

The mortgage sale, of River Lots Nos. 81 and 82, has been postponed until further notice.

James Scott, mail contractor, of Troy, was in town this week, and leaves again to-day for home. Miss Scott, who has been attending the convent here, will accompany her father home.
